

NEWS RELEASE August 18, 2010

PVFD Headquarters Now Located at 120 Jensen Avenue West

For the next few months while the Parksville Firehall undergoes upgrades and renovations, the temporary headquarters for the Parksville Fire Department will be at 120 Jensen Avenue West.

The department had planned to bring a trailer unit on to the construction site to use as office space, however, as a cost savings measure, the department has chosen to use the old house at 120 Jensen Avenue West as their temporary offices. The City owned house which is slated for demolition is just down the block from the existing firehall.

The inside of the house has had a fresh coat of paint and it's beginning to look like an office. By using the house as temporary headquarters, the department expects to save about \$7,500 - money which will be put towards the construction.
