

City Recognized for Corporate Carbon Neutrality in 2014

The City of Parksville received notification this week from the joint Provincial-Union of British Columbia Municipalities Green Communities Committee that the City of Parksville successfully achieved its goal of corporate carbon neutrality for the 2014 reporting year.

“This is the fourth year the City has attained carbon neutrality and we are proud of that record,” said Mayor Marc Lefebvre. “The City has demonstrated its commitment to work with the province and UBCM to take action on climate change and to reduce greenhouse gas emissions in our operations and we are pleased once again, to reach the goal of becoming carbon neutral.”

The Green Communities Committee was established under the Climate Action Charter to support local governments in achieving climate goals. The City as a Climate Action Charter signatory has been awarded Level 3 recognition – *Achievement of Carbon Neutrality*. Recognition is provided on an annual basis to local governments who demonstrate progress on their Climate Action Charter commitments.
